Humphreys A contractor often claims loss and expense at the same time as an extension of time. It is the “money” side of a contractor’s claim for delay and disruption (that is, a claim for the cost of inefficient working and employing more resources). Standard form contracts usually allow the contractor to claim for delayed or disrupted work. A quick guide to claims arising under a construction contract. In traditional construction contracts, disputes often arise as to whether or not the completed work is in accordance with the specifications. The specification may be vague on the subject of the dispute in question, and each party to the contract may have a different view on whether the quality and workmanship is acceptable. Construction disputes - Designing Buildings Wiki. Claims commonly arise between the parties to construction contracts. This can be as a result of problems such as delays, changes, unforeseen circumstances, insufficient information and conflicts. Claims might be made for things such as loss and expense, extension of time and liquidated damages. Contract claims in construction - Designing Buildings Wiki. Examples of

Construction Contract Disputes The vast majority of projects have claims and disputes – whether the dispute is settled at the project site or in a courtroom.
