This book is basically meant for the learners of English as second or foreign language. It greatly helps them to acquire Good English distinct from the regional or local English. Though it is a Grammar book, its contents are completely explained in the descriptive method so that the learner/reader may not require to by heart any principles or its contents. It is made possible by focusing on the logic and the philosophy behind the system of English which enable the learner/reader to acquire English in comprehensive and effortless manner. Moreover, the learner/ reader can easily master the unique feature of English language system by understanding how it manages to express and explain all actions by using only the four basic forms of the verb and the four basic structures that those forms constitute and in turn, the four basic meanings that those structures stand for, correspondingly.

The teaching of English in the Asian context is always challenging and dynamic because both teachers and learners have diverse linguistic and cultural backgrounds. Equally important, where English is not widely used outside the classroom, English language classrooms are an authentic site of learner engagement. For these reasons, for all those concerned with contemporary English language teaching (ELT) in Asia, Asian English Language

Classrooms: Where Theory and Practice Meet, provides an account of theoretical orientations and practices in the teaching of English to multilingual speakers whose primary language is not English. While covering the fundamental ELT areas (e.g., the teaching of language skills, educational literature, the use of technology in ELT, the role of pragmatics in ELT, social psychology of the language classroom, and language classroom management) with which every language teacher and teacher trainer must be concerned, this volume showcases how particular orientations shape ELT practices. We believe that practicing English teachers must have a heightened awareness of the theory behind their practice. At the same time, the theoretical stance must be firmly anchored in actual classrooms. Containing newly commissioned chapters written by well-regarded and emerging scholars, this book will appeal not only to beginning teachers or teachers in training but also to established teachers around Asia where English is used as a lingua franca. If you are a student teacher of English or an English teacher who would like to see what other progressive teachers like you are doing across Asia, this is the book you have been looking for.

Some people savor neither poetry nor grammar. Others love poetry, but not grammar. Some dislike poetry, but enjoy analyzing grammar. Finally, there are those excited about both poetry and the structure of the language. Three by Four Reflections uses innovative approaches to understanding poetry and grammar and promotes the synergy between meaning and structure as related to the teaching of English overseas. In a story of synergy between father and son that demonstrates ways that meaning and syntactic infrastructure can be taught interactively, students are provided a

father's wit and wisdom in poetry and a son's sample sentences sayings that analyze the meaning and structure of the verses. Included are tools for analyzing and synthesizing the English tense system that help make the shared poetry easier to understand for students who want to learn grammar and find the deeper meaning in lyrical verse while simultaneously gaining wisdom from two one mean's insights about life. Three by Four Reflections shares a father and son's unique approach to educating students in other countries about North American poetry, grammar, and how the two work in conjunction with each other.

A three-level English Course book for teenage and young adult learners. 'English for Everyone' covers all the things taught at A1 to C1 (CEF) level. This book is designed to enable its readers to become skilled at Spoken English. Whenever we talk about learning English, we start talking about tenses, grammar and vocabulary. Memorize tenses, master grammar and mug up some commonly used words and you will master English. But despite learning tenses, grammar and vocabulary, people are unable to converse in English effectively. Why? Because this is not the right method to learn English. Let me ask you something. If you are an Indian, you can probably speak Hindi well. Have you ever learnt Hindi tenses? Have you ever learnt Hindi grammar rules or Hindi word meanings? I believe that your answer is 'No' with a capital 'N'. Then how do you speak Hindi or your mother tongue fluently? Think hard. Nobody talks about learning tenses or grammar when it comes to speaking Hindi proficiently. But everyone talks about learning tenses, understanding grammar and strengthening vocabulary when it comes to speaking English fluently. English or any language, for that matter, is learnt by using it in practice. Let me ask you how any child learns his mother tongue. How an Englishman's baby learns English and an Indian's child learns Hindi. When a child is born, the environment around him teaches the language. He hears the language in the background and that serves as a kind of practice for him. Listening to the language repeatedly enables the child to start understanding it. He tries speaking and becomes fluent in the language in a few months. We will apply a similar method to learn English in this course. The lessons in this book will help you to practice the English language in everyday situations. We will not focus on theory. We will focus on practice. We understand that there are many people out there who know the theories of grammar but are very poor at spoken English. This is because knowing concepts is not equal to applying concepts. In this course, every lesson will help you to apply and not simply know concepts. This is how language is learnt. This is how you will learn English too. All the best!
