Dion and Leith aren't just detectives, they're human beings. See, that's the problem.
RCMP officer David Leith and his team investigate a series of murders in this atmospheric new crime series. Cold Girl — Book #1 A singer vanishes in the snowbound Hazeltons. Has she been snatched by the so-called Pickup Killer? Investigator David Leith has much to contend with — punishing weather and wily witnesses, plus a young constable who's more hindrance than help. Suspects multiply, but only at the bitter end does Leith discover who is the coldest girl of all.
Undertow — Book #2 RCMP detective Leith fears he's made a mistake bringing his

family to North Vancouver. His first Serious Crimes Unit case has rocked his senses: who would brutally murder a mother, father, and baby? Detective Dion, also regretting the move, has returned to the city where he no longer fits in — but is he back in the swim, or destined to drown? Creep — Book #3 A pair of dead bodies don't seem linked, or even suspicious, at first, but Dion and Leith soon find themselves with a hairy murder case on their hands. As Dion gets tangled up with a witness and Leith loses himself in the case, a different kind of killer is on the prowl. But the rumours about him being more than human can't possibly be true ... Flights and Falls —

Books #4 While Constable Dave Leith investigates past incidents along the stretch of highway to zero in on the faceless prankster, his unlikely partner on the case, Cal Dion, begins to suspect the team is on the wrong track.

This isn't the PR class you took in Business School! And relax; this is not a book about Jesus. (Although he does appear in two chapters: first as a Hispanic grandfather from Waterford, Michigan, and later as the real Prince of Peace.) No, this book is about a life in the public relations blast furnace of the automotive industry; being the only man on the front line. If you're a company owner, CEO, PR professional, the lessons and stories in this book are **INVALUABLE** for you and everyone in your

PR department! Even if you're just somebody who enjoys a look into the wild ride in the world of corporate America, this book is for you. Get your copy of "What Did Jesus Drive" now, and let the games begin!

****Reviews**** "Jason's story telling is his honest account of time well spent in a career documenting numerous pivotal events we all want to hear about." - Lee Iacocca "Get me Jason Vines! How I wish as the candidates I worked for screamed, screwed, or gaffed their way into crisis, I had called on Jason Vines. This is more than a corporate PR book - it's a masters' class, no holds barred, white knuckle ride of insights and wisdom for anyone whose job it

is to communicate for a living." - ?????? "Jason Vines in raw and real story telling of his own journey explains to every politician, celebrity, corporate communications professional and government agency that has ever faced trouble (yes I am talking about you NFL - read this one Goodell!) why we have such a hard time telling the truth, why that's the whole frickin' problem and what we can do about it." - Joe Trippi, Democratic Campaign and Media Consultant. "Jason Vines lived The Hurt Locker, defusing one public relations I.E.D. after another. To think some of the largest corporations we can name have been this close to pure PR disaster, and yet were saved by the insight

Jason earned from decades of corporate cage fights, is truly amazing." – Dutch Mandel, AutoWeek Publisher "I always knew I could count on Jason for an unbiased and honest opinion." – Dr. Ricardo Martinez, MD, FACEP and former NHTSA Administrator

This study chronicles the success of the Japanese car in America. Starting with Japan's first gasoline-powered car, the Takuri, it examines early Japanese inventors and automotive conditions in Japan; the arrival of Japanese cars in California in the late

1950s; consumer and media reactions to Japanese manufacturers; what obstacles they faced; initial sales; and how the cars gained popularity through shrewd marketing. Toyota, Honda, Datsun (Nissan), Mazda, Subaru, Isuzu, and Mitsubishi are profiled individually from their

origins through the present. An examination follows of the forced cooperation between American and Japanese manufacturers, the present state of the industry in America, and the possible future of this union, most importantly in the race for a more environmentally-sound vehicle.
