NEW SPACE OPERA FROM MULTIPLE NEBULA- AND HUGO-WINNING AUTHOR NANCY KRESS WHAT LIES BEYOND THE ELEVENTH GATE . . . Despite economic and territorial tensions, no one wants the city-states of the Eight Worlds to repeat the Terran Collapse by going

to war. But when war accidentally happens, everyone seeks ways to exploit it for gain. The Landry and Peregoy ruling dynasties see opportunities to grab territory, increase profits, and settle old scores. Exploited underclasses use war to fuel rebellion. Ambitious heirs can finally topple their elders' regimes—or try to. But the unexpected key to either victory or peace lies with two persons uninterested in conquest, profits, or power. Philip Anderson seeks only the transcendent meaning of the physics underlying the universe. Tara Landry, spoiled and defiant youngest granddaughter of dynasty head Rachel Landry, accidentally discovers an eleventh star-jump gate, with a fabulous find on the planet behind it. Her discovery, and Philip's use of it, alter everything for the Eight Worlds. At the publisher's request, this title is sold without DRM (Digital Rights Management). Modern Sci-Fi Films FAQ Roc

Alien invasion has rendered Earth uninhabitable. Now, humanity survives in settlements on Mars, the moon, and distant space stations around Jupiter and Saturn. It's all people

can do to eke out a living from mining, salvage, and scrap. Twin brothers Denver and Laramie Clayborne's salvage operation is a small one—just them, their friend Marit, and their quirky 'bot, OPAL. Their lives are simple and they like it that way, even though they barely earn enough to pay for Laramie's expensive, life-saving medications. They make do, just like everyone else. It's all they can do. Until the day they find something big floating in the wreckage of a battleship graveyard. Something so rare, so precious, it could change their lives forever. Trading it would make them loved. Selling it would make them rich. But keeping it might make them heroes. They have a chance at a whole new world, if they're brave enough to grasp it. And if Mars doesn't catch them first.
