*The Bold Business Book* St. Martin's Press  
 It has become more complicated to navigate the business world while maintaining integrity and balance a fulfilling personal life. To make it in a man's world, you need to know how to do it without losing who you are. Gina Radke has been navigating the corporate world for twenty years and will share what Mansplaining, Impostor Syndrome, the Bitch Label and even the mythical work life balance really look like. She provides realistic tips on how to handle everyday obstacles in business and life with wit and grace. Are you ready for the mentor that every woman wishes she had in the beginning of her career? More than a book

on business or motivation, *More Than* is the guide to learning from the men around us and the woman who went before us and using those lessons to live like the beautiful, intelligent, talented, creative and hardworking Rockstar that you are! *Mindshift* Miles Design LLC  
 From the author of the acclaimed book *Fierce Conversations* comes the antidote to some of the most wrongheaded practices of business today. · "Provide anonymous feedback." · "Hire smart people." · "Hold people accountable." These are all sound, business practices, right? Not so fast, says leadership visionary and bestselling author Susan Scott. In fact, these mantras — despite being long-accepted and adopted by

business leaders everywhere — are completely wrongheaded. Worse, they are costing companies billions of dollars, driving away valuable employees and profitable customers, limiting performance, and stalling careers. Yet they are so deeply ingrained in organizational cultures that no one has questioned them. Until now. In *Fierce Leadership*, Scott teaches us how to spot the worst "best" practices in our organizations using a technique she calls "squid eye"—the ability to see the "tells" or signs that we have fallen prey to disastrous behaviors by knowing what to look for. Only then, she says, can we apply the antidote.. Informed by over a decade of conversations with Fortune 500

executives, this book is that antidote. With fierce new approaches to everything from employee feedback to corporate diversity to customer relations, Scott offers fresh and surprising alternatives to six of the so-called “best” practices permeating today’s businesses. This refreshingly candid book is a must-read for any manager or leader at any level who is ready to take a long hard look at what trouble might be lurking in their organization - and do something about it.

In a world where most businesses fail, *The Art of Preventing Stupid* offers a system for leaders to solve common business problems before they happen. Author Matthew Neill Davis introduces the Preventing Stupid Method to running a business, a method that guides readers in identifying, categorizing, and prioritizing threats to and weaknesses in their business. This book details how to efficiently prevent and manage potential and present problems and helps business owners and managers learn how to create leads for a more profitable business. You will learn how to seize opportunities rather than wallow in problems that should never have made it to the surface. Forward-thinking risk management This book delivers bold business strategy rooted in forward-thinking risk management. It is about changing how leaders think, so they can run their business with confidence, effectiveness, and profitability. It shows struggling entrepreneurs how to weed out the stupid mistakes they’re making, so they can move forward. For those already running a business, it offers next-level risk management strategies to make work easier, more profitable, and more secure. Advice from a lawyer In *The Art of Preventing Stupid*, you’ll get a lawyer’s perspective and insight and the value of a fractional general counsel for the cost of a single book. Matthew Neill Davis of Davis Law, PLLC, a firm that has three times made the Law Firm 500 for being among the fastest-growing law firms in the nation, will show you how to make smart, meaningful changes to successfully grow your organization. With his extensive litigation and business representation experience and expertise in building and running custom legal departments for businesses and nonprofits, he has dedicated himself to helping business owners make smart business decisions.

"An experienced accountant and tax advisor tells aspiring business owners how to assess their plans, set up their business and finances right, and not lose money."--

**The Leveraged Business** Clovercroft Publishing

The authors document how four forces-- exponential technologies, the DIY innovator, the Technophilanthropist, and the Rising Billion--are conspiring to solve our biggest problems. "Abundance" establishes hard targets for change and lays out a strategic roadmap for governments, industry and entrepreneurs, giving us plenty of reason for optimism.

If you are one of the millions of people who wake up every morning with a deep desire to play bigger, but don't know how or where to start, then *Bold New You* is your roadmap on how to get out of your own way, take courageous action, and be a better leader of yourself. This book is filled with personal stories and testimonials of how individuals, just like you, discovered deeper self-awareness, shifted their mindset and the roadblocks holding them back, and made some different choices so they could lead with stronger impact and influence. The vulnerability will be relatable and the exercises throughout the book will help you apply the six breakthrough steps to playing bigger, leading better, and living bolder. They are...1. Take Care of You, First2. Keep Your Ego in Check3. Take Responsibility for Your Energy4. Own Your Voice5. Act Like a Champion6. Live in Purposelt is time for a Bold New You. You owe it to yourself, your relationships, and the world. Let's get started!

Beat the odds with a bold strategy from McKinsey & Company “Every once in a while, a genuinely fresh approach to business strategy appears” – legendary business professor Richard Rumelt, UCLA McKinsey & Company’s newest, most definitive, and most irreverent book on strategy—which thousands of executives are already using—is a must-read for all C-suite executives looking to create winning corporate strategies. *Strategy Beyond the Hockey Stick* is spearheading an empirical revolution in the field of strategy. Based on an extensive analysis of the key factors that drove the long-term performance of thousands of global companies, the book offers a ground-breaking formula that enables you to objectively assess your strategy’s real odds of future success. “This book is fundamental. The principles laid out here, with compelling data, are a great way around the social pitfalls in strategy development.” — Frans Van Houten, CEO, Royal Philips N.V. The authors have discovered that over a 10-year period, just 1 in 12 companies manage to jump from the middle tier of

corporate performance—where 60% of companies reside, making very little economic profit—to the top quintile where 90% of global economic profit is made. This movement does not happen by magic—it depends on your company’s current position, the trends it faces, and the big moves you make to give it the strongest chance of vaulting over the competition. This is not another strategy framework. Rather, *Strategy Beyond the Hockey Stick* shows, through empirical analysis and the experiences of dozens of companies that have successfully made multiple big moves, that to dramatically improve performance, you have to overcome incrementalism and corporate inertia. “A different kind of book—I couldn’t put it down. Inspiring new insights on the facts of what it takes to move a company’s performance, combined with practical advice on how to deal with real-life dynamics in management teams.”

—Jane Fraser, CEO, Citigroup Latin America

*Extra Bold* is the inclusive, practical, and informative (design) career guide for everyone! Part textbook and part comic book, zine, manifesto, survival guide, and self-help manual, *Extra Bold* is filled with stories and ideas that don't show up in other career books or design overviews. • Both pragmatic and inquisitive, the book explores power structures in the workplace and how to navigate them. • Interviews showcase people at different stages of their careers. • Biographical sketches explore individuals marginalized by sexism, racism, and ableism. • Practical guides cover everything from starting out, to wage gaps, coming out at work, cover letters, mentoring, and more. A new take on the design canon. • Opens with critical essays that rethink design principles and practices through theories of feminism, anti-racism, inclusion, and nonbinary thinking. • Features interviews, essays, typefaces, and projects from dozens of contributors with a variety of racial and ethnic backgrounds, abilities, gender identities, and positions of economic and social privilege. • Adds new voices to the dominant design canon. Written collaboratively by a diverse team of authors, with original, handcrafted illustrations by Jennifer Tobias that bring warmth, happiness, humor, and narrative depth to the book. *Extra Bold* is written by Ellen Lupton (*Thinking with Type*), Farah Kafei, Jennifer Tobias, Josh A. Halstead, Kaleena Sales, Leslie Xia, and Valentina Vergara.

Abby Archer should be content. Her coffee shop, Haze, is thriving, and she has a great group of friends. There's just one thing missing: love. Despite past betrayals, Abby hasn't given up on finding the one, waiting with increasing impatience to experience the sparks she's always dreamed of. Lexi Finn lives for her career. At least her job won't break her heart. Unlike Abby, she's most definitely not searching for the one or anyone for that matter. Avoiding relationships isn't all that difficult when she's become so skilled at keeping people at a distance. So imagine Lexi's shock when, walking into Haze, she feels instant attraction and an unshakeable connection with Abby. Abby has a picture of her perfect woman in her mind, and it certainly isn't the intolerable Lexi Finn. When a hopeless romantic meets a tough-as-nails cynic, they'll need to overcome the wounds of the past to discover that their hearts are the most important business of all.

"The supreme art of war is to subdue the

enemy without fighting. --Sun Tzu, author, *The Art of War* The challenge is this: how can America's fractured democracy and diverse society respond to a centrally orchestrated strategy from China that ultimately may challenge our interests and our values? Some Chinese-Americans and Chinese residents--perhaps only a relative handful--have cooperated in obtaining technology for China. And many Chinese nationals who obtained years of experience working at American companies have returned to China to help competitors there. The Chinese have a nickname for these individuals, haigui, or returning sea turtles who come ashore once a year to lay their eggs. This book outlines the contemporary issues and offers solutions.

Oil and coal have built our civilisation, created our wealth and enriched the lives of billions. Yet their rising costs to our security, economy, health and environment are starting to outweigh their benefits. Moreover, the tipping point where alternatives work better and compete purely on cost is not decades in the future - it is here and now. And that tipping point has become the fulcrum of economic transformation. In *Reinventing Fire*, Amory Lovins and the Rocky Mountain Institute offer a new vision to revitalise business models and win the clean energy race - not forced by public policy but led by business for long-term advantage. This independent and rigorous account offers market-based solutions integrating transportation, buildings, industry and electricity. It maps pathways for running a 158%-bigger US economy in 2050 but needing no oil, no coal, no nuclear energy, one-third less natural gas and no new inventions. This transition would cost \$5 trillion less than business-as-usual - without counting fossil fuels' huge hidden costs. Whether you care most about profits and jobs, or national security, or environmental stewardship, climate, and health, *Reinventing Fire* makes sense. It's a story of astounding opportunities for creating the new energy era. -- Publisher description.

Perhaps the most important leadership conversation begins by asking: If we do not risk anything in our very comfortable world, then what is leadership really

about? *Bold Reinvented* brings a sense of urgency to awaken the dormant leaders that surround us, starting with ourselves. Reading it, you will learn what a bold leader does, and how. The book challenges our human habit of choosing self-preservation over power to transform, revealing boldness within us to impact the world around us. It addresses our constant struggle to hold a bold vision that matters to us and the discomfort that comes with it. It invites us to understand how in that way we contribute to the smallness rather than the greatness of ourselves, our organisations and worlds. Too often we are told what to do to develop good leadership. This book does not do that. Instead, it helps us with how to think so that we know what to do to access our outstanding bold leadership. Reading this book, we learn about: our boldness that is limitless if we know where to look for it. The only reason we remain blind to our bold leadership capacity is because we are focused on surviving first. The identity we have created for ourselves that may be an illusion. We can become a much bigger, bolder identity that leaves a legacy. The structured steps within the SOUL Framework that allow us to turn difficulties on our leadership journey into allies. All we need to do is embrace the unknown and uncertainty by simply boldly daring to know. The "SOUL" framework as a central concept to this book activates the next level of our courage, consciousness and convictions, making our leadership contribution everything but small. SOUL stands for Self, Other, Universe and Legacy. *Bold Reinvented* helps us to take our leadership vision seriously and recognise our discomfort as merely an indication of the importance of our work so that we can exercise the leadership both us and this world are hungry for. For all those who know that being of greatest leadership service to the world is not about giving the right answers but boldly asking the right and often uncomfortable questions, the enquiries made in this book will surely leave an indelible impression. **BOMBHELL BUSINESSWOMAN** Greenleaf Book Group  
A Wall Street Journal Bestseller Named a Financial Times top title How to unleash "human magic" and achieve improbable results. Hubert Joly, former CEO of Best Buy and orchestrator of the retailer's spectacular turnaround, unveils his personal playbook for achieving extraordinary outcomes by putting people and purpose at the heart of business. Back in 2012, "Everyone thought we were going to die," says Joly. Eight years later, Best Buy was transformed as Joly and his team

rebuilt the company into one of the nation's favorite employers, vastly increased customer satisfaction, and dramatically grew Best Buy's stock price. Joly and his team also succeeded in making Best Buy a leader in sustainability and innovation. In *The Heart of Business*, Joly shares the philosophy behind the resurgence of Best Buy: pursue a noble purpose, put people at the center of the business, create an environment where every employee can blossom, and treat profit as an outcome, not the goal. This approach is easy to understand, but putting it into practice is not so easy. It requires radically rethinking how we view work, how we define companies, how we motivate, and how we lead. In this book Joly shares memorable stories, lessons, and practical advice, all drawn from his own personal transformation from a hard-charging McKinsey consultant to a leader who believes in human magic. *The Heart of Business* is a timely guide for leaders ready to abandon old paradigms and lead with purpose and humanity. It shows how we can reinvent capitalism so that it contributes to a sustainable future.

**Being Bold and Driven** Simon and Schuster

BOLD leaders in existing organizations see well beyond the current business, see the potential available to them, and both appreciate and relish the transformational challenge to win. They will invent the future from the position they start with today. They are leaders who view market dynamics opportunistically, are excited by the challenges, can imagine the possibilities and translate them to their

colleagues, and who will assemble teams to drive the needed changes to successful conclusion. And then they will do it again. Do you know who the BOLD leaders are in your organization?
